FEATHER & FOLLY COPPER POT GIN, \$35

A grape-based spirit, Feather & Folly Copper Pot Distilled Gin is made in the Columbia Valley of Washington State by the Monson Family, the team behind Goose Ridge Estate Vineyards and Winery. This handcrafted gin is distilled from sustainably farmed Goose Ridge Estate Cabernet Sauvignon grapes grown within the Goose Gap AVA and infused with unusual botanicals, including locally sourced juniper berries, as well as Angelica, black lime, coriander, orange zest and licorice root. “Using a grape-based spirit with fruit from our estate vineyards enables us to tap into the unique aspects of the Goose Gap appellation,” says Brian Morton, master distiller. “Feather & Folly highlights this terroir, and the end result is a uniquely expressive gin featuring a fruit-forward style.” Check out some delicious Valentine’s Day cocktail recipes like the Folly Blueberry French 75 or the Vido & Folly Vesper here.
